Press Release - Hitachi Kokusai Electric Inc. continues investment in COMARK Communications LLC

Southwick, Massachusetts.....Comark Communications LLC (hereinafter, "COMARK") today announced that Hitachi Kokusai Electric Inc. (hereinafter, "Hitachi Kokusai", and represented by Manabu Shinomoto, President and Chief Executive Officer) has decided to reorganize COMARK to a consolidated subsidiary of Hitachi Kokusai Electric America, Ltd. (hereinafter, "Hitachi Kokusai America", office: New York, U.S.). In addition, the corporate name of COMARK will be changed to Hitachi Kokusai Electric Comark LLC (hereinafter, "Hitachi Kokusai Comark"), and the sales and maintenance businesses of broadcasting transmitters and codecs that are handled by the Midwest office of Hitachi Kokusai America (Elgin, Illinois, U.S.) will be integrated into Hitachi Kokusai Comark.

Richard E. Fiore, Jr. President and CEO of COMARK stated "The acquisition of COMARK moves our company into a position of financial stability and augments our engineering and development commitment to the industry. We have fostered a great relationship with Hitachi Kokusai and the new products we will be showing at NAB will prove that we are well on the right track to meet our customer's needs now and into the future. Products such as the PARALLAX; our latest high power liquid cooled solid state system, and the new E-Compact air cooled Doherty transmitter line will fill out our product portfolio for complete offerings across all power levels."

About Hitachi Kokusai Electric America Ltd.:

Hitachi Kokusai Electric America, Ltd. is wholly owned company of Hitachi Kokusai Electric Inc. Hitachi Kokusai Electric America, Ltd. markets and sells video cameras & systems, digital transmission, processing and recording devices for the broadcast television, cable, video production, and industrial vision markets.

About COMARK Communications LLC:

For over 40 years COMARK has been synonymous with broadcast expertise and innovation. A trusted partner to the world's leading broadcasters, COMARK has pioneered many developments that have shaped the industry, leading innovation in IOT & MSDC-IOT technology, transistorized solid-state technology, Digital Adaptive Pre-correction (DAP), and also winning multiple Emmy® Awards; and gaining numerous patents in technologies that have become fundamental to broadcasting. COMARK is now building on this great heritage with the release of an entire new range of transmission products for terrestrial television broadcasting, and state-of-the-art products for scientific/industrial RF applications. With thousands of active COMARK transmission systems deployed worldwide and a global support presence, COMARK plans to continue to develop technologies for the future, with efficiency and performance initiatives for improving coverage and saving power.

Look for COMARK at NAB 2015, booth # SU-3021.
